Art Unit: 1714

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 26 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 26 recites "the reinforcing inorganic filler". There is no antecedent basis for this language.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13, 26-28, 32-33 and 37-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Garro et al.

Garro et al disclose tire treads produced from silica containing elastomers with polysilicon containing coupling agents. Applicants recitation of "can be grafted" using a polysulfenamide is not seen as requiring the presence of the polysulfenamide.

Claims 14-25, 27-31, 34-36 and 39-41 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
